Bengaluru

25 years of experience in the IT industry, specializing in building digital capabilities with a focus on growth and customer centricity. With a deep-rooted passion for driving innovation, I aim to strategically guide organizations through the evolving digital disruption by harnessing my extensive background in digital transformation and leadership. My aspiration is to cultivate resilient digital ecosystems and operational excellence, aligning technology solutions with business goals to revolutionize industries. As an Independent Director, my focus is to steer companies towards unprecedented growth and competitive advantage by leveraging emerging technologies.

Professional Summary

- Led the digital transformation initiatives across various functions, resulting in a marked improvement in operational efficiency and customer satisfaction.
- Managed cross-functional global teams, enhancing collaboration and accelerating project delivery timelines.
- Spearheaded legacy modernization efforts, achieving significant cost reductions while improving system performance.
- Instrumental in integrating advanced technologies such as AI/ML and RPA into business processes, driving innovation and competitive edge.
- Championed cybersecurity governance, ensuring robust security frameworks and compliance across organizational IT infrastructures.
- Excelled in strategic IT planning and management, aligning IT strategies with business objectives for streamlined operations and growth.
- Implemented Agile DevOps practices, increasing development speed and improving product quality.
- Fostered a culture of continuous learning and improvement through employee engagement initiatives, diversity, and inclusion efforts.
